Deployment Portfolio Task 2 (10 points)

Start Assignment

Due Monday by 23:59 **Points** 10 **Submitting** a file upload **Attempts** 0 **Allowed attempts** 3
Available 19 Sep at 0:00 - 5 Oct at 23:59

Deployment Activity 2

You should perform tasks that will, in total, provide a potential of 10 marks.

Submit your Task 2 AWS cloud platform deployment report only (Don't submit other tasks reports here).

Task 2. Deployment to the AWS cloud platform - Individual Task

Note: Tasks 2.2 and beyond require access to the AWS documentation and require an AWS account. You may be required to provide credit card details and may be charged for some AWS resources.

Task 2.1 Pass (if completed fully with the highest quality)

By following AWS documentation on the links provided complete the following tasks

- Open an AWS account (https://docs.aws.amazon.com/codedeploy/latest/userguide/getting-started-setting-up.html)
- Create an SSH key pair (https://docs.aws.amazon.com/AWSEC2/latest/UserGuide/create-key-pairs.html)
- Create an EC2 instance (https://docs.aws.amazon.com/codedeploy/latest/userguide/instances-ec2-create.html)
- Deploy a WordPress instance to it (https://docs.aws.amazon.com/codedeploy/latest/userguide/tutorials-wordpress-launch-instance.html)

Task 2.2 Credit (if completed fully with the highest quality)

By following AWS documentation

- Complete task 2.1 and
- Create an ELB
- Re-install WordPress using an external database
 - (copy the existing Wordpress database to an RDS instance and use it instead of the database on the EC2 instance)
- Backup instance to S3
- Create an instance from S3 backup

Task 2.3 Distinction (if completed fully with the highest quality)

- Complete tasks 2.2 and
- Create a Launch Template (formerly Launch Configuration* now deprecated)
- Create an ASG
- Configure ASG to launch instance
- Test scaling

Task 2.4 High Distinction (if completed fully with the highest quality)

- Complete task 2.3 and set up and demonstrate SSH access from Windows or Mac
- Demonstrate (screen-shot) various command-line interactions with the instance

Each task has a marking rubric that includes the minimum requirements needed to achieve the equivalent of Pass, Credit, Distinction, or HD grades (for the task). **In general, the mark achieved for a task will be determined by the sub-tasks attempted and the quality of these tasks (see the subtasks and the marking rubric).**

To attempt a high grade for a task, students must complete all of the lower-level sub-tasks leading up to that level.

Students may choose to attempt high grades for some small tasks but just a pass grade for larger tasks.

The final result for the portfolio will be the sum of the grades for each task.

Submit a report including what you did and screenshots providing evidence of this. The report must include a publicly accessible IP address/URL for verification. Submit the report through the canvas Assignment portal.

Please submit before the due date, Any late submissions (up to 5 days) will incur penalty as stipulated in the unit outline.

Submission Instructions:

Deployment Report:

For each deployment task, prepare a pdf or rtf document with the following sections:

1. Student details: Student ID, Full name
2. Unit details: Unit code and Name (SWE40006 Software Deployment and Evolution), semester,
3. Due date (for feedback) and submission date
4. Declaration of the task level attempted (Sub-tasks 2.1 to 2.4)
5. A report providing evidence of completion of the various sub-tasks. The evidence can include screen-shots (labelled with captions), pasted text from console windows and a description of what you did and any errors/unresolved problems.
 - Notes: Where source code and/or script files are required for discussion/verification, include them through the publicly accessible IP address / URL, and DO NOT include them in the report. Binaries (executables) should not be submitted, but evidence of their successful compiling/building/deployment should be included as screen-shots or pasted console display.
 - Each report must be submitted through the Canvas Submission portal before the due date.

The submitted Report will receive feedback and grades only once. There are no re-submissions/re-assessments.

Note: if you are aiming for level (C/P/D/HD) in a task. You have to work on that level and you can't be changing to submit another level after the due date. The feedback will be given on the current level you are aimed for the first time you submit the work by the due date.

Deployment 2 rubric

Criteria	Ratings					Pts
Analysing and investigating	**4 Pts** **High Distinction** Analysed and investigated errors on the AWS console and described clearly on eradicating all errors	**3 Pts** **Distinction** Analysed and investigated errors on the AWS console and has a short brief on eradicating errors.	**2 Pts** **Credit** Analysed and investigated errors on the AWS console but did not have enough explanations.	**1 Pts** **Pass** Analysed a few errors but did not investigate errors on the AWS console.	**0 Pts** **No marks** No evidence provided for criterion	4 pts
Source Coding and brief explanation	**4 Pts** **High Distinction** An ability to provide deployment outcomes successfully with a brief explanation of coding/scripts and demonstrate (screen-shot) various command-line interactions with the instances.	**3 Pts** **Distinction** An ability to provide deployment outcomes successfully with coding/scripts, configuring ASG to launch instances, and Test scaling (with screenshots from AWS).	**2 Pts** **Credit** An ability to provide deployment outcomes successfully with 1-2 errors in coding/scripts, and Backup instances to S3, Create an instance from the S3 backup (with screenshots from AWS).	**1 Pts** **Pass** An ability to provide deployment outcomes with few errors in coding/scripts on the AWS console (with screenshots from AWS).	**0 Pts** **No marks** No evidence provided for criterion	4 pts
Quality, Report writing skills, Spelling and grammar	**1 Pts** **High Distinction** Written report with no spelling, grammar errors throughout the text and has better quality content.	**0.75 Pts** **Distinction** Written report with no spelling, grammar errors throughout the text with good quality content.	**0.5 Pts** **Credit** Written report with minor spelling and grammar errors throughout the text.	**0.25 Pts** **Pass** Written report with major spelling and grammar errors throughout the text.	**0 Pts** **No marks** No evidence provided for criterion	1 pts
Quality in Report structure (appropriate Headings/sub-headings)	**1 Pts** **High Distinction** Ability to provide report structure in an appropriate form and proper explanations	**0.75 Pts** **Distinction** Ability to provide report structure in an appropriate form with few explanations	**0.5 Pts** **Credit** Ability to provide report structure in an appropriate form	**0.25 Pts** **Pass** Does not has an ability to provide report structure in an appropriate form	**0 Pts** **No marks** No evidence provided for criterion	1 pts
						Total points: 10
